Space and Naval Warfare Systems Command Awards Contract

SAN DIEGO – Cubic Defense Systems, Inc., San Diego, Calif., is being awarded an \$8,704,580 firm-fixed price/cost-plus-fixed-fee contract for a Communication Data Link Subsystem (CDLS) and Modified KI-11A Subsystems. Antenna systems will become part of the only CDLS CVN variant capable of multiple link capability in support of helicopters accomplishing an anti-submarine warfare mission. Antennas provide CDLS multilink capability with 360-degree coverage. The KI-11 upgrade will provide a form, fit, function replacement of the CDLS communications security equipment in order to comply with National Security Administration standards for chip replacement. The upgrade will also correct issues associated with the KI-11 as a high failure item.

This contract includes options which, if exercised, would bring the cumulative value of the contract to an estimated \$18,662,816.

Work will be performed at the contractor facility in San Diego.

The period of performance for the base period is from the date of the award through February 2014. The contract contains four one-year options. If all options are exercised, work could continue until February 2018.

Contract funds will not expire at the end of the current fiscal year.

This contract was sole sourced and synopsized via the SPAWAR Business Opportunity website and FedBizOpps.gov website.

The Space and Naval Warfare Systems Command, San Diego, Calif., is the contracting activity (N00039-12-C-0084).
